The warehouse occupies a 0.5 acre site and provides a reinforced concrete floor, an electric roller shutter door leading to an undercroft within the warehouse, a ground floor lobby area with first and second floor offices and there is a passenger lift servicing ground to second floors.

The offices are fitted to Cat A, with WCs on ground (predominantly for warehouse use), first and second floors as well as tea-points being fitted on each floor.

The external areas provide 9 car parking spaces and a loading / unloading area capable of acting as an ample external storage area.

ESG has been at the centre of the unit's construction with solar PV panels and EV charging points being fitted and a target BREEAM certification of 'Excellent'.
